

Subjects offered in the Master “TAIDA” –  
**Master in Advanced Techniques in Agroalimentary Research and  
 Development**  
**Course 2023-24 and 2024-25**

Code	Subject name	Sem	ECTS	Responsible Profesor
	<b>Module:Methods in Investigation</b>			
203301001	Techniques in cellular and molecular biology	S1	4	Julia Weiss <a href="mailto:Julia.weiss@upct.es">Julia.weiss@upct.es</a>
203301002	Genomic Tools in Research	S1	4	Marcos Egea Gutiérrez-Cortines <a href="mailto:Marcos.egea@upct.es">Marcos.egea@upct.es</a>
	<b>Module: Agro-Food Biotechnology</b>			
203301003	Advanced Techniques in <i>in-vitro</i> Plant Culture: Micropropagation and Production of Valuable Compounds	S1	4	M. Ángeles Ferrer <a href="mailto:Mangeles.Ferrer@upct.es">Mangeles.Ferrer@upct.es</a>
203301004	Plant Defense: Biotechnological Tools to obtain Plants resistant to diseases	S1	4	Catalina Egea Gilabert <a href="mailto:Catalina.Egea@upct.es">Catalina.Egea@upct.es</a>
	<b>Module: Technology and Engineering in Crop Production</b>			
203302002	Degradation and Restoration of mediterranean agroecosystems and surrounding areas	S1	4	María Nazaret González Alcaraz <a href="mailto:nazaret.gonzalez@upct.es">nazaret.gonzalez@upct.es</a>
203302003	Innovations in Horticulture	S1	4	Juan A. Fernández <a href="mailto:Juan.Fernandez@upct.es">Juan.Fernandez@upct.es</a>
	<b>Module: Food Technology and Engineering</b>			
203301008	Risk analysis and predictive microbiology	S1	4	Pablo S. Fernández Escámez <a href="mailto:pablo.fernandez@upct.es">pablo.fernandez@upct.es</a>
203301009	Minimal processing techniques to preserve quality and safety of fruit and vegetables	S1	4	Artés Hernández, Francisco De Asís <a href="mailto:fr.artes-hdez@upct.es">fr.artes-hdez@upct.es</a>
